

MANJARI KAMLEY

Software Engineer · Full-Stack · Data & AI/ML · Cloud & DevOps

Tarakeswar, Kolkata, West Bengal | +91 9339910615 | kamleymanjari@gmail.com | linkedin.com/in/manjari-kamley | github.com/Manjari-2005

Final-year Computer Science undergraduate with hands-on project experience spanning full-stack development, applied machine learning, data analytics, and cloud/DevOps infrastructure. Comfortable moving across the stack — from building REST APIs and React front ends to designing ML pipelines and containerized, security-hardened deployments. Strong foundation in Data Structures & Algorithms, system design, and collaborative hackathon delivery, with a track record of independently shipping and deploying production-style applications.

TECHNICAL SKILLS

Languages	Python, Java, JavaScript/TypeScript, SQL
Web & Full-Stack	React, Redux Toolkit, HTML5/CSS3, Flask, REST APIs, Streamlit, Vite
Data & Machine Learning	Pandas, NumPy, Scikit-learn, Matplotlib/Seaborn, TigerGraph (GSQL), Microsoft Excel
Cloud, DevOps & Infrastructure	Docker, Docker Compose, Nginx, Gunicorn, MongoDB, Vercel, Render, CI/CD fundamentals, Zero-Trust network design
Core CS & Tools	Data Structures & Algorithms, Git, GitHub, VS Code

INTERNSHIP EXPERIENCE

Artificial Intelligence Intern — Codec Technologies Pvt. Ltd. <i>AICTE & ICAC Approved National Internship Portal Google for Education Partner</i> - Built a spam email classifier using Python (scikit-learn, Pandas) with an SVM + Naive Bayes consensus model, exposed via a Flask REST API and a React front end. - Developed a customer churn prediction model (Random Forest) with a Flask backend and an interactive React dashboard for business-facing insights.	Mar – Apr 2026
---	----------------

PROJECTS

LedgerShield — AI Fraud Detection Platform for Banking <i>Python, Flask, TigerGraph (GSQL), pyTigerGraph, SQL, JavaScript</i> - Built at Devcation Hack 'N' Solve 2026, IIT Delhi (TigerGraph Premium Track); designed a graph schema (Account & Transaction nodes) with GSQL queries to flag fraud rings in real time. - Deployed a live full-stack demo integrating graph analytics with a web dashboard for transaction monitoring.	IIT Delhi Hackathon
DevOps-IaC-Simulator — Multi-Tier Infrastructure as Code Stack <i>Docker, Docker Compose, Nginx, Python (Flask, Gunicorn), MongoDB</i> - Designed a production-style, Docker Compose–driven multi-tier architecture (Nginx → Flask API → MongoDB) implementing Zero-Trust network isolation — only the reverse proxy is exposed to the host. - Implemented health-gated service startup, a multi-stage Dockerfile to shrink image size and attack surface, a non-root container user, and security response headers at the Nginx layer.	Independent Project
VoiceAI (AI-IQ) — Multilingual Voice AI Platform for Healthcare & Finance <i>Python, Flask, TypeScript, React, FFmpeg</i> - Built a full-stack, voice-driven AI platform supporting Hindi, English, and Kannada for healthcare and finance use cases. - Engineered a Flask backend with FFmpeg-based audio processing and a TypeScript/React front end; deployed live on Vercel.	Independent Project
Revenue Optimization Engine — E-Commerce Pricing Analytics Tool <i>Python, SQL, Pandas, Streamlit</i> - Modeled demand elasticity with Pandas to simulate pricing strategies and estimate revenue impact for e-commerce scenarios. - Built dynamic SQL queries for live data retrieval and an interactive Streamlit dashboard for exploratory analysis.	Independent Project
Spam Classifier & Customer Churn Prediction <i>Python, scikit-learn, Pandas, Flask, React</i> Two end-to-end ML classification systems, each with a Flask REST API and a React front end, developed during the Codec Technologies internship.	Internship Deliverables

EDUCATION

RCC Institute of Information Technology (RCCIT), Kolkata <i>B.Sc. Computer Science, Final Year (CGPA: 7.95) Affiliated to MAKAUT — Coursework: DSA, DBMS, OOP (Java), OS, Computer Networks, Software Engineering, Cryptography & Info Security, AI, Soft Computing</i>	2023 – 2027
West Bengal Council of Higher Secondary Education (Class XII) 76.4%	2023

CERTIFICATIONS

- Data Analytics Job Simulation — Deloitte / Forage (Apr 2026): Data Analysis & Forensic Technology tasks - Software Programmer — Python — Nasscom FutureSkills Prime, IT-ITeS Sector Skills Council (Mar 2026) - Introduction to Generative AI — Google Cloud / Simplilearn (Apr 2025) · AI for Entrepreneurship — Intel Technology India / Skill India Digital Hub (Mar 2025)

ACHIEVEMENTS & ACTIVITIES

- Devcation Delhi 2026 (GDG on Campus IGDTUW x IIT Delhi, TigerGraph Premium Track) and AINCAT 2026 (Naukri Campus all-India aptitude test). - Actively maintains and deploys live projects: LedgerShield (Render), VoiceAI (Vercel), Revenue Optimization Engine (Streamlit).
